

## iEmployee, a Leader in Internet-based Human Resource Applications, Chooses EnterpriseVoIP™ for their Managed Telecommunications Services

**Waltham MA, September 2006....Blue Robin, Inc.**, announces that iEmployee, a leader in internet-based human resource applications has chosen Blue Robin's EnterpriseVoIP™ phone system for their telecommunications needs.

EnterpriseVoIP™ is an all-digital T1-based Managed Telecommunications Service (MTS) that provides state-of-the-art IP telephone systems and converged local, long distance, and Internet access services. This one-source, full-service approach delivers business-class voice and data services traditionally only accessible to Fortune 500 companies and other large enterprises. This all encompassing solution provides a flexible, scalable, and cost saving solution for all data and voice communications.

EnterpriseVoIP™ eliminates the need to purchase and maintain a local PBX system. It also frees the users from the costly burden of managing numerous voice and data services and vendors. Redundant IP PBX servers, routers, and voice gateways located in carrier-grade facilities allow EnterpriseVoIP™ to provide carrier-class service at very low cost.

“Before choosing Blue Robin's EnterpriseVoIP™ we had tried ATT and Vonage's VoIP phone services, but all failed to deliver the quality and the reliability of the EnterpriseVoIP™ phone system that Blue Robin provides us. We used to experience customer complaints about quality, but not any more,” states Snehal Shah, President of iEmployee. “Connecting our off-shore team to our Head Quarter in the US with such a high-quality VoIP phone system has saved us hundreds of dollars and we have become more efficient” continues Snehal Shah.

“When an Internet-savvy organization such as iEmployee selects our technology and services over others, it tells us we are doing something right. We are delighted to have iEmployee as a client and are committed to providing them with top quality support and satisfaction,” states Earl Gray IV, president of Blue Robin.
